22 May 2025

Workshop: Industrial Decarbonization and the Clean Industrial Deal

A full-day workshop examining the interface between industrial decarbonization and energy infrastructure development, with a strong focus on European policy and cross-country collaboration.

Morning:

We will get first hand insights on the European Clean Industrial Deal from the European Commission and shed light on joint international activities related to industrial decarbonization (e.g. Net-zero industries mission). Subsequently we will make a deep dive on country-specific activities and peculiarities, aiming to explore synergies and best practices in facilitating and guiding the industrial transition (including e.g. NEFI New Energy for Industry).

- Opening keynote: Antonio Ferrandez Garcia (EC DG RTD)
- Presentations on EU Clean Industrial Deal and Net-Zero Industries Mission by Bernhard Gahleitner (AIT)
- Country-specific presentations: Austria (Bernhard Gahleitner/Gustav Resch), Netherlands (Laurens de Vries), Belgium (Jelle Meus), Germany (TBC)

Afternoon:

The afternoon is dedicated to the interdependencies between industrial decarbonization and energy infrastructure development. We will share our experiences and interactively elaborate how Energy System Integration activities can best meet the needs arising from the industrial transition and related innovations.

- Interactive session on interdependencies between industrial decarbonization and energy infrastructure
- Integration of research and policy perspectives

Dinner at 19:00 in Zagreb City Centre.

23 May 2025 (for ESI Members only)

EERA JP ESI Steering Committee Meeting (Hybrid)

Main agenda items:

- Presentation of the 2024 Annual Report
- Financial Report 2024 and Budget 2025 approval
- Discussion on ESI Membership Fees
- Organisation of the Brussels Research Meets Policy Conference (23 Oct 2025)
- Members' Events
- Strategic input on the 2026/2027 Horizon Europe Work Programme
- AOB

We warmly encourage all EERA members to take part in this strategic event, fostering dialogue, knowledge exchange, and new partnerships to drive Europe's sustainable energy future.
